Buy American Made Goods.

Buy American Made Goods.

Is not this the proper time to urge upon the people of the United States the necessity of using American-made fabrics of both cotton and woolen, and maling it a fashion to wear American goods?

This would give employment to theusands of operatives now lide and save our gold from being sent abread to swell the coffers of foreign manufacturers.

Let societies be formed of the rich and fashionable, and lite every pariotic American for one or the years agree to wear the products of our own mills.

My opinion is that lift were done we would not be dispendent upion foreign gold to help us out of the "cavity" we are now in.

The above communication sides and the second of the cavity.

The above communication addressed to the Boston Journal, contains a valuable and practical suggestion for the men and women of America. Now is a good time to cultivate patriotism for, as the Journal says editorially, if all the money which is being sent abroad for articles which could be produced here at the same expenditure of labor were being used to purchase domestic labries, it is undenisble that thousands and thousands of American working men and women, now At may not be practicable to organize

auch societies, though that has been done with profit more than once in the history of our country, but there is no reaso why every one should not constitute himself or herself a Committee of One for Promoting Home Jacinstry, waith the BEST STOCK COMPANIES present depression is passed. There are distinguished precedents for such action. General Washington, first and greates of Americand, in just such a oritical time as this wrote to friends in the State of

And Thomas Jefferson:

Jefferson's bard common sense and virile Americanism andly shame some of the men who call themselves his political descendants. Hear what another Hichols Building, Banger, MAINE. great'man and great Democrat—Andrew Jackson—has said upon this question:

Jackson—has said upon this question:
